

**Home Learning in Y1**

*Home Learning is important as it gives children the opportunity to become organised, confident and independent learners, which will help them throughout their time at school and into adult life*

**The Role of Parents/Carers:**

- Hear your child read regularly and sign/date the Reading Record
- Endeavour to provide a peaceful, suitable place, where your child can complete the tasks set, usually with an adult
- Make it clear to children that you value their Home Learning activities; check that they are carried out regularly and are presented to a high standard
- Encourage and praise children as appropriate
- Become actively involved in joint activities - have fun together!
- Ensure that the Home Learning Books are returned to school each week

**Maths (starts Autumn 2)**

Maths activities are set on a Monday. Your child will receive alternate Dig1t Games or a My Maths activity (online) to complete. Please tick/initial next to the date below when your child has completed the Maths activity. They may like to show any working out, record scores or stick photographs into this Book. The table below sets out which activity you will receive and when:

**Project (starts Spring 1)**

For each cross-curricular project, we will send home a list of suggested activities that you can complete with your child. These might vary from research, making or creating something, to maybe visiting somewhere. Please choose a minimum of 3 activities over the half term and record this in the Home Learning Book.
